resident and his wife long life and happi-ess. Thus ended the fifty-fourth com-tencement season at Wabash College. NOTES FROM THE COLLEGE.

Prof. Alexander traith has left for a visit at Morning Side, Scotland. kev. E. B. Thomson will receive a salary

of \$1,200 per year as librarian. M. V. Burk will still have charge of the grounds and buildings next year. Prof. J. H. Ransom. '90, has been retained as an instructor in the preparatory depart

The agent to travel for the college will receive an annual salary of \$1,200 and ex-

Prof. J. L. Campbell was assisted in his duties as secretary of the board of trustees by Rev. W. P. Kane, of Lafayette.

H. E. Seaton has been elected first assistant in botany, under Professor Coulter, at the State University in Bloomington. From the time of the erection of the old Center Church building up to two years ago the graduating exercises were held in this church. To-day the exercises were in the Yandes Hall, there being over one thousand chairs used to seat the audience.

DEGREES CONFERRED. Thirty-Second Annual Commencement Exer-

cises Held at Earlham College. Special to the Indianapolis Journal. RICHMOND, Ind., June 17 .- Commence-

ment proper occurred at Earlham College to-day. The weather was very warm, but It did not deter many from attending. The programme, which was as follows, was arranged without regard to honors, the names of only eight appearing out of the class of twenty-five graduates:

"Waste of Our Resources," Herbert Charles;
"Beneficence and Order Beneath Catastrophe,"
Anna Goddard; "Martyr or Traitor, Arnold," J.
Edward Coggeshall; "Christianity and the Elevation of Woman," Edith J. Hunt.

Piano solo—(a) Nocturne Op. 32 No. 1, Chopin;
(b) "In the Spinning Room," Bohm, Eval L.
Brown, "Reciprocity," Lester J. Neill; "The
Dominant Element in American Society," James
E. Elder; "A Plea for Cuba," Mary L. Coggeshall;
"Honesty," Addison N. Tucker; conferring of degrees and benediction by President J. J. Mills.

In conferring the degrees President Mills said: "For the thirty-second time in her history Earlham Callege lays laurels on the brows of her children. To the entire satisfaction of both college boards you have completed your several courses of study, and I am pleased to confer upon you your diplomas, indicating your degrees."

The degrees conferred were as follows:

Bachelor of Arts-Luther G. Brown. Bachelor of Philosophy-Layton Allen, Her-bert Charles, Mary L. Coggeshall, S. Emma Davis, James E. Elder, Littie A. Garrett, Edith S. Hunt, Homer F. Hussey, Isa Nicholson, Joseph F. Ratliff, Lorena A. Townsend.

Bachelor of Science—M. Alice Brown, J. Edward Coggeshall, Ira K. Hall, Byron C. Hubbard, Atwood L. Jenkins, Lester J. Mill, Arthur Picket, Bobert H. Thomas, Addison N. Tucker, Arthur E. Wildman.

Bachelor of Letters-Grace Goddard, Richard
Hawworth, Anna Goddard.

Degrees in course were conferred as fol-Prof. Edward P. Trueblood, B. of S., class of '85, the present professor of elocution at Earlham, master of art. Elwood C. Parisho, B. of S., class of '87, for three years professor of mathematics in Guilford College, North Carolina, master of science. Henry C. Fellow, B. of P., class of '85, principal of an academy in Kansas, master of philosophy. Marianna Brown, class '76, professor of Latin languages and literature, and William M. Trueblood, professor of English literature and rhetoric, both of Earlham College, master of arts.

Congratulatory telegrams from Hiram Hadley, in Mexico, and Prof. Gerber, in Baltimore, were also read by President Mills, who spoke very feelingly to the class

Mills, who spoke very feelingly to the class of the pride of their alma mater in saying good-bye to its boys and girls, hoping for a good answer from them in after years. EARLHAM COLLEGE NOTES.

Class day exercises by the seniors on Monday was a pleasant affair. The stage was beautifully decorated and Lindley Hall held a good audience to hear the programme, which was up to the average of

Monday evening occurred the joint annual exhibition of the literary societies. The programme was a good one of excellent music, orations, essays and recitations. The hall was crowded with citizens and

On Tuesday morning the biblical class delivered orations, or sermons, they might be called, and received their certificates. The class this year consists of three members, A. May Pemberton, of West Milton, O., whose theme was "The World by Wisdom knew not God;" Robert W. Hodson, of Navon, Kan., who spoke on "Tis only No-ble to be Good," and Martilia Cox, who made an eloquent plea for "Woman in the Pulpit." At the close of the exercises by the class Prof. D. W. Dennis delivered to them a short, pointed and very appropriate

At 2 o'clock in the afternoon, Lieutenant-governor Ira J. Chase delivered the annual address before the literary societies. Mr. Chase spoke eloquently to the young people on "The Obstacles to Success." The hearty applause at the close of his address was an index of the appreciation of the

From 4 to 5:30 o'clock a microscopical soiree was given in the biological laboratory, which was new and wonderfully interesting to most of the large company that visited it. The facilities for microscopy in Earlham, it is said, are not surpassed in

There was also on exhibition drawings by the class in civil engineering, showing work in railroad surveying and bridge-building, which were very skillfully executed. The art exhibit was visited by hundreds

and the universal testimony was that the collection was exceptionally fine. Most of the work was executed by Professor Bondy

Tuesday evening the address before the slumni was delivered by S. Edgar Nicholson, of the class of 1885. Subject, "The Moral Principle in Government."

AT LAKE FOREST.

Ex-Senator Farwell Presided at the Banquel and Heard the Essays. CHICAGO, June 17 .- Commencement at

Lake Forest, Ill., University, to-day, marked the close of a very successful college year. Ex-United States Senator C. B. Farwell, president of the board of trustees, was a leading spirit at the graduation exercises, and presided at the banquet with all his accustomed, grace. Wretched weather did not prevent a large attendance. The graduation exercises were held in the First Presbyterian Church. Everbody wore the new college colors-ruby red and black, William Danforth, of Batavia, N. Y., was awarded the McClure medal. The other essayists were Miss Florence Raymond, of Dixon, Ill.; Henry Davis Greenup, of Iowa; Lucia Sickles, of Indianapolis, Ind.; F. P. Help, of Marengo, Ia.; Edmund Dodge, of Chicago; Juliet Rumsey, of Lake Forest; Josiah Sutton, of St. Anne, and William H. Umistone, of Chicago. Miss Davis, of Lake Forest, delivered the valedictory.

President W. C. Roberts, in addition to

the usual class degrees, conferred the fol-D. D.-Rev. August F. Bruske, president of Alam College, Michigan; Rev. Arthur J. Brown,

of Portland, Ore. LL. D.-W. T. Moore, of Columbus, O. M. A.—Calvin H. French and Anna Davis. B. A.—William E. Danforth, of Batavia, N. Y. Bachelor of Nusic—Ida E. Kehl.

President Roberts, in his address, alluded to the completion of the new gymnasium, a beautiful stone structure, and said the art school, the gift of Henry C. Durand, of Chicago, would be finished by fall, as would also the John B. Beidler memorial college. "In addition to these structures," said the president, "Mr. Durand will give to the university Louis Hall, which he purposes this summer in memory of his mother. This will be used as a dormitory

New Summer Fur Protector.

Philadelphia Times. It will be a matter of surprise to many a woman who never went beyond camphor, insect powder, tar paper, cedar wood, or pepper that international agreements can be used for the preservation of seal fur through the summer.

THE popularity which Hood's Sarsapawonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to

CRAZY RUSSIAN NOBLEMAN

Assistant Secretary Nettleton's Experience with Alexander von Grigorowicz.

Crank Who Wanted to Teach the President How to Run the United States-Ex-Congressman Grosvenor Given Another Office.

Special to the Indianapolis Journal. WASHINGTON, June 17 .- The sultry still ness of the Treasury Department was broken by a most surprising episode this afternoon. Assistant Secretary Nettleton was seated in his office when a fine looking man, with a heavy blonde mustache and decided foreign looking appearance entered. and, walking to the Secretary's desk laid down his passport. The stranger then introduced himself as Alexander von Grigorwicz, a Russian nobleman. The Assistant Secretary looked at the passport and found it to be No. 1576, and assued by the Russian

General Nettleton turned towards the nobleman to see what he could do for him. Before he could say a word the Russian was on his feet and in a loud and excited voice demanded to be taken at once to the White House, and into the presence of the President. He then began to tell General Nettleton that he had come from Russia to show the President how to run the United States. Furthermore, he had a plan to aid President Harrison to upbuild, to further and to control all dynasties of the world. "I am in a tremendous hurry," he cried,
"and must go at once to the President."
General Nettleton saw at once that the Russian was insane, and pacifying him with a promise to comply with his request,

rang for his messengers and sent them fly-ing for a couple of officers. As soon as these arrived they took charge of the Rus-sian and put him in safe keeping. General Nettleton, out of courtesy, at once sent word of the affair to the Russian legation. but he intends to send the nobleman back to New York, and from thence back to Rus-Alexander von Grigorowicz landed eight days ago in New York by the steamer Columbia. His passport is in regular form, and shows him to be a man of noble birth and position. That he is insane is proven by his conduct in the Treasury Department

this afternoon, but the question arises: Can he be sent back to Kussia after having

landed and been free for eight days in Salary Too Small to Pay His Debts. WASHINGTON, June 17 .- Lieut. James A. Swift, of the Ninth Cavalry, was placed on trial by court-martial, at Washington barracks, to-day, on charges of failure to promptly liquidate his indebtedness. The court was adjourned pending the arrival of some witnesses from the West. The in-debtedness charged against the officer ap-pears to be due to the frequent changes of station to which Swift has been subjected, and the fact that his salary has been insufficient to move his large family and meet the expenses of such frequent trans-

Gone to Warn Seal-Poachers. WASHINGTON, June 17 .- The United States steamer Thetis will proceed at once to Sand Point, Alaska, to notify all the sealing vessels found at that rendezvous to keep out of Behring sea, under penalty of seizure and prosecution. The revenue steamer Corwin and the other naval ves-sels will proceed direct to Behring sea and assist the revenue cutters Bear and Rush in the establishment of an effective patrol of that territory.

Another Office for General Grosvenor. WASHINGTON, June 17 .- Gen. Charles H Grosvenor, of Ohio, has been appointed an agent of the Treasury Department to visit Europe in the interests of the world's fair. Mr. H. J. Schulties, of the District of Co-lumbia, has been appointed an additional member of the immigration commission ap-pointed to visit Europe to investigate im-migration affairs. He is appointed as the representative of the Federation of Labor.

The President Going to Cape May Point. WASHINGTON, June 17 .- The President has been working unusually hard since his return from the Pacific coast, and is thoroughly tired ont. He has therefore decided to take a short vacation, and will accompany Mrs. Harrison and his grandchildren to their summer come at Cape May Point to-morrow. The President will return to work next Tuesday, in time for the regular Cabinet meeting.

General Notes. WASHINGTON, June 17 .- Assistant Secretary Spaulding has decided that eggs, being perishable, are excluded from the privi-

leges of the bonded-warehouse system. The Treasury Department issued a circular to-day to the effect that when suit has been begun against the government for any claim pending, the claim will be referred to the courts, and a call by the Court of Claims or other courts for papers in a case will be accepted as notice of the filing of such suits. The President has appointed W. E. S. Falles, of New York, to be marshal of the United States consular court at Amoy,

ARKANSAS BENDERS.

Capture of a Gang of Desperadoes Who Robbed and Murdered Their Victims.

FORT SMITH, Ark., June 17 .- The Westmorelands, one of the most desperate gangs of robbers that ever operated in this section, have been captured and jailed on the evidence of a boy named Sherman Phelps, who gave the authorities the story of one their murders, of which he was a witness. For years past travelers have been known to stop at the Westmorelands and have not been seen again. The bones of many victims were found in a well near by, and behind the Westmorelands' cabin were found frames of values, piles of clothing and other articles, probably booty taken from their victims.

Jury-Briber Sentenced.

NEW ORLEANS, June 17 .- To-day coupsel for McCrystal, convicted of attempting to bribe McCabe, who had been summoned as a tales juror in the Hennessy case, made application for a new trial. Judge Marr overruled the motion and sentenced Me-Crystal to one year in the ponitentiary, the full term of imprisonment provided by

The jury in the cases of McCrystal and Cooney, for attempting to bribe Gormley, were given the case at 9:30 last night. At 11:30 to-day they had failed to agree, the jury reporting that one member had refused to render a verdict of any kind either for or against the accused or either of them. They were again locked up.

To-night, at 7 o'clock, the jury in the case
of Thos. J. McCrystal and John Cooney returned a verdict of "guilty as charged. Ferdinand Armant, an attorney, was tried to-day for attempting to bribe Leonce Burth, who was summoned as a tales juror in the Hennessy case. After four hours there was no prospect of an agreement, and

a mistrial was entered. Meat Inspection Bureau Instituted. CHICAGO. June 17 .- Secretary Rusk. of the Department of Agriculture, to-day vis-ited the stockyards and justituted his meat inspection bureau. This bureau wil microscopically examine all hog meats intended for export, definitely to determine that they are not affected by triching. The Secretary believes as soon as it can be officially shown that American bog products are certainly healthful the European markets will be opened to them.

Mr. Colgate's Generous Donation. NEW YORK, June 17 .- At the annual meeting of the trustees of Colgate University. held yesterday, \$1,000,000 was given to the university by James D. Colgate. In his communication announcing the gift Mr. Colgate said: "I am confident that this university will continue to be, in the true the term, a Baptist university, tite-restoring which everybody seems to where the ruling purpose will sed at this season. Be sure to get Hood's be to discover and teach truth, order that it may be fear- on. The sheriff and a posse are in pursuit.

lessly yet fervently followed, wherever it may lead." The fund to be created by the one-million-dollar gift is to be known as the Dodge memoral fund, as a tribute to the memory of the late Ebenezer Dodge, president of Colgate University, and the life-long friend of Mr. Colgate.

SUSPECTED POISONING.

The Death of Mrs. Wright Attended by Cir

cumstances That Arouse Grave Suspicions.

Coroner Manker consulted with Superintendent Colbert, yesterday, relative to the death of Mrs. Nancy Jane Wright, of No. 41 Buchanan street, which occurred May 18. Ten days before her mother had died under like circumstances, and neighborhood rumors of foul play grew so strong that the coroner had Mrs. Wright's stomach examined by Peter Latz, who reports that he found it cotainned copper in fatal quantity. The coroner will now order the body of the mother ex-humed for analysis. He informed Mrs. Dorsey, a sister of Mrs. Wright, with whom the latter and her little daughter lived, of the discovery of poison, and subjected her to close examination as to what the deceased had eaten. Mrs. Dorsey denied all knowledge of her sister havtaken poisonous matter. Wright's life was insured for \$1.000, and, by the coroner's advice, friends of the child Mrs. Wright left prevented Mrs. Dorsey's appointment as guardian, for which she applied. She has had five husbands, one of whom had an insurance of \$2,000 on his life. The coroner will furthur confer with Supt. Colbert to-

SOUND INSURANCE COMPANY.

New York Equitable Life One of the Strongest Institutions in the World. NEW YORK, June 17 .- The report telegraphed last night announcing the dissolution of the New York Equitable Life Insurance Company should have read, "the New York Equitable Fire Insurance Company." Much misapprehension having arisen in consequence of this report, it is proper to say that the item had no reference to the Equitable Life Insurance Society of the United States, of which Henry B. Hyde is President, and which is financially one of the strongest institutions in the world.

New York Life Insurance Company. ALBANY, N. Y., June 17 .- The State Superintendent of Insurance to-day received a letter from Third Vice-president Welsh, of the New York Life Insurance Company. He recites what he terms the charges made against the company and its management in connection with the Spanish American department. He states that the president, now in Europe, has cabled suggesting that the Insurance Department be invited to examine the company to satisfy policy-holders who may have been disturbed. The finance committee of the company had taken action in accord with this suggestion, and the vice-president's letter was designed to extend the invitation to examine the company. Thereupon Superintendent Pierce has notified Department Superintendent Shannon to enter upon the exam-

CHARGED WITH CONSPIRACY.

Switchmen File a Complaint with the Su preme Council Against the Trainmen. CHICAGO, June 17 .- The Supreme Council of the United Order of Railway Employes, at its meeting to-day, refused by a unanimons vote to adopt the resignation of the Switchmen's Mutual Aid Association. Representatives of the switchmen's association then preferred charges of conspiracy against the Brotherhood of Trainmen, in consequence of the action of that body in connection with the recent Northwestern strike. A committee was appointed to take the testimony of the complainants and their witnesses. Applications for membership by the Order of Railway Conductors and the Brotherhood of Stationmen were reserved for discussion. The meeting adjourned to re-convene in Terre Haute, Ind., within a few days, when the annual elec-tion of officers will take place and the report of the committee on the complaints against the trainmen will be received.

Telegraphers May Amalgamate. Sr. Louis, June 17 .- The Order of Railway Telegraphers has received a communication from the Brotherhood of Telegraphers setting forth the latter's proposition to amalgamate. In it they state emphatically that the protective clause is necessary, and intimate strongly that without it amalgamation would be almost useless. The report of the insurance committee recommends that the insurance feature be made obligatory upon all members. In the report of the grand executive committee reference is made to amalgamation and protection. It is stated on good authority that the order will eliminate the non-striking, and the protective clause will be

Boiler-Makers and Iron-Ship-Builders. St. Paul, Minn., June 17 .- The International Union of Boiler-makers' and Ironship-builders' are in session here with over one hundred delegates present. The president reports that the organization has a membership of eleven thousand, an increase of 4.250 during the last twelve months. This growth, it was stated, was the natural effect of the act of Congress in giving a subsidy for carrying mails into foreign waters giving the promise that iron-shipbuilding will become one of the colossal industries of America, and give employment to an army of skilled workmen.

Iron and Steel-Workers' Scale. PITTSBURG. Pa., June 17.-The Amalga mated Association of Iron and Steel-work ers to-day finished the Western iron scale at \$5.50, as last year. The other changes are slight. Nine hours is to be a day's work for scrappers, finishing and busheling, from charging first heat to finishing heat, but this does not apply to the eight-hour de-partment. All differences arising between

under the rules of the association. Strikers Return to Work.

workmen and mill-owners must be settled

Special to the Indianapolis Journal. HUNTINGTON, June 17 .- The strike of the lime quarrymen, of this city, for 15 cents per hour, in progress some five weeks, has worn itself out, and the men are resuming work. The Western Lime Company to-day resumed operations, and when fully going will employ from 150 to 200 workmen. Sensational telegrams of the situation alleging a boycott of the city by the Federal Labor Union, are without foundation.

Business Embarrassments. CHICAGO, June 17 .- R. W. Dunham & Co., the Board of Trade commission firm who yesterday transferred their trades to Norton & Worthington, to be closed out and settled, late yesterday filed a bill for the appointment of a receiver for the company, and the court appointed the Illinois Trust and Savings Bank to act in that capacity. The bill for a receiver stated that it was impossible to continue the business on account of a lack of capital. Outstanding liabilities to customers are stated at over \$100,000, and outstanding assets in the way of accounts against customers of a like amount. Mr. Dunham says that the losses of the firm since Jan. 1 will not ex-

MONTREAL, June 17.-A London cable dispatch says that the water-works and gas-works company recently promoted for the purpose of purchasing properties in the United States and Canada, with a capital of \$2,500,000, has collapsed. Sir Charles Tupper is one of the directors, and was censured in Parliament for being connected

Mail Coach "Held Up" and Robbed. ELLENSBURG, Wash., June 17.-In broad daylight, vesterday afternoon, the Wenatchia stage was held up by a masked high wayman, twenty-five miles from here. The robber made the driver throw out the United States mail-bags, and compelled the only passenger to rip them open and hand him all the registered packages, eight in number. He then told the driver to go

CLOUD-BURSTS IN THE WEST

Creeks in lowa and Nebraska Suddenly Transformed Into Raging Rivers.

Great Presence of Mind Displayed by a Freight Engineer-Narrow Escape of a Heavily Loaded Passenger Train-Town Flooded.

COUNCIL BLUFFS, Ia., June 17 .- This morning a cloud-burst, a passengor train loaded down with human freight barely safe, and a portion of a freight train in a creek is what was pictured to the eyes of the people of Corning, on the Chicago, Burlington & Quincy railway. About one hundred miles east of this city and not a great ways from Corning is Plum creek. At day break this little stream of water showed no signs of going out of its banks. About 5 o'clock a dark threatening cloud moved upon that section from the west. The cloud, very low, seemed to be descending as it traveled, and when it reached the outskirts of the valley it appeared to drop to the ground. A short time after this strange phenomena, Burlington passenger train No. 2 came along bearing an unusually large number of travelers. The train took orders at Corning Station and proceeded on the journey to the city. A that spanned Plum creek.

mile west of Corning it crossed the bridge Seven minutes later a freight train fol-lowed. The freight train was under good headway when it neared the bridge, and engineer Powers, with characteristic can-tion, looked shead at the structure. To his borror he saw that an attempt to cross the bridge meant death. He had but a moment to act, but he was to the emergency. Grasping the throttle, he reversed the engine and called for brakes. A shudder crept along the entire train as the elements locomotion conflicted. The engine slackened speed materially, but eugineer Powers did not succeed in preventing a partial wreck, and be was forced to jump for life. In the twinkling of an eye he had made the leap just as the big locomotive and three cars fell with a terrific crash into the chasm. The rest of the train held the track. The creek, which, only a few mements before, was but a minor stream, was swollen, and bad carried away the bridge soon after the passenger train crossed. Engineer Powers in jumping landed in twelve feet of water, and after a thrilling struggle, escaped being carried away by the current.

Floods in Nebraska.

OMAHA, Neb., June 17 .- The heaviest rain known for years fel! last night all over the State. In southern Nebraska and northern Kansas several wash-outs of railway tracks resulted, the most serious being in the vicipity of Orleans. Several small washouts occurred on the branch line between Orleans and Oxford. Trains on that branch are delayed and some have been abandoned altogether. On the Elkhorn Valley road a wash-out occurred at Battle Creek caused by a water-spout. The creek suddenly rose at 2:30 this morning. The rise was caused by a waterspout, which swept away several houses and endangered a number of lives. The town is half overflowed at present and people have to go about in boats. It is thought that the mill-dam will go. Large damage has already been done to crops. Several miles of track and a number of bridges have been washed out. At Oakdale the precipitation was five inches. Cellars are filled and the walls are gone. A hundred feet of railroad track and one bridge, near town, has been washed out. At Humphrey Bartholomew Bogns, a farmer, was killed by lightning, also the team with which he was plowing. At Palmer, the wife and grandmother of Vaclay Lanton were struck by lightning

and killed. Extent of the Rain-Fall. CHICAGO, June 17 .- An abnormally widespread rain made life burdensome to-day to thousands, of railroad men and telegraphers. Advices from points stretching in a line between New York and Kansas City and to a long distance north and south tell in unvarying succession of dan-gerously slippery rails and sodden wires. In many places the rain has been in progress since last night, with no indica-tion of cessation. The Western Union wires in the great territory indicated were to-night practically useless except at rare

Twenty-Three Persons Killed. CITY OF MEXICO, June 17 .- A water-spout fell on Sunday on the mountain on which is situated the Concepcion silver-mine, in the state of San Luis Potosi. Twenty-three persons were killed and thirty were wounded. Much property was destroyed and the mine was badly damaged. Many mules were killed.

STREET-RAILROAD AFFAIRS.

Citizens' Company Would Like to Place Some of Its Stock with Local Capitalists, There is a little bit of ground for the

various rumors about negotiations for the sale of the Citizens' Street-railroad Company's plant or parts thereof, but it is not at all likely it will begin to retail its lines off "by the yard," or dispose of any single line or group of lines. Its owners could not do this if they wanted to do so. The whole plant is covered by mortgage and no part of it could be sold. All there is in the deal with the Greenwood company is the fact that the latter company has made an indefinite proposition to the Citizens' company, through V. T. Malott, for a ten years' lease of the line running down South Delaware and Madison avenue. This suggestion was offered to the Chicago directors by Mr. Malott, but nothing has been heard from it. The Citizens' company is not "on the

market," but some of its stock is. It is a

very large concern, representing an investment of over \$2,000,000, and is requires brains and tact to properly manage it. Though Cyrus McCormick, S. W. Allerton and the other Chicago owners have plenty of brains, they are all occupied with various other large interests and cannot devote much of their time to their property here. Furthermore, they are in Chicago, and the Citizens' street railroad is in Indianapolis. They would like to have the concern in such shape that they could clip the coupons from its bonds and cash its dividend checks periodically without paying any further attention to the mat-They came to the sion early this spring that Mr. Shaffer was not managing the company to the best advantage and hurriedly deposed him. Mr. Fowler was put in temporarily and a policy of new electric lines was announced to popularize the company and to put publie opinion into proper shape before a new franchise was asked for. Since Mr. Fowler has taken hold he has found it an enormous job, more than he can attend to without slighting his interests in Chicago. What the Chicago people now want is to place a certain amount of their stock in the hands of five or six Indianapolis business men in whom they can have conti-dence and who have the confidence of the people. If such men can be found and induced to buy stock, the intention is to elect them directors and let them choose one of their number who can devote his whole time to the work as president. This would relieve them of the management they think, secure better handling of the road and greatly help in popularizing the company. They are trying to place this stock through Mr. Maiott.

North Indianapolis Route.

The Citizens' Street-railroad Company has selected the following route to North Indianapolis: West on Twelfth from Illinois to the Michigan road, north to either Armstrong or Highland street in North Indianapolis, west on Lulu street to Shoemaker street, and east on Shoemaker to the Michigan road again.

Extension Asked For. Councilman Gauss is circulating a petition to the Citizens' Street-railroad Company for signatures of citizens on South | 305 South Clark street, Chicago, Ill.

Meridian and Raymond streets, asking that the street railway be extended from the Belt road to Raymond street, and thence west on Raymond to Garfield Park.

No Franchise for Union Street. The Greenwood Company will again go before the Board of Public Works to-morrow to learn if it is ready to give a franchise over Union street. The Greenwood people will learn that the board is not ready.

TWO MEN KILL THEMSELVES.

Dr. Foulston's Small Debt and Mortgage Drive Him to Suicide.

Dr. Samuel W. Foulston, last evening, about 7 o'clock, at his office in Haughville, shot himself through the heart. He used a British derringer of 44 caliber, which he always carried with him. He had attended the funeral, in the afternoon, of Harry Carpenter, the Mount Jackson farmer who committed suicide Monday, and while the Doctor was known to be of a very impressionable nature, he gave no direct evidence of depressing influences that might lead him to such an act. Coroner Manker, however, was informed by Foulston's wife that her husband told her an hour or so before he killed himself that he intended to do so. but he had so often said the same thing she paid no ettention to him. He had frequently sold Mr. Wood Canfield that he was tired of life, and recently he seemed to be more in earnest in his threats. Mr. Canfield says that the deceased said to him within a few days: "I'm in a hole, and I guess I will let this little thing," showing the pistel, "pull me out." This allusion to his difficulties meant financial straits, which were causing Dr. Foulston much distress. His household effects were incumbered with a chattel mortgage in second incumbered with a chattel mortgage in security of a \$100 note which will be due on the 1st of July. The Doctor left a wife and one child, and his domestic relations are said to have been happy. Mrs. Foulston was formerly Miss Lakin, and is a singer of local note. She was living in Terre Haute when she married the Doctor, and they made that city their home until 1887. Dr. Foulston was once coroner of Vigo county. He was a warm friend of Commissioner Emrich, and through his influence secured the position of physician to the work-house. He was thirty-four years of age and a native of Leeds, England, where he completed his first course of medical study, but he was graduated from the Central Medical College, of this city. He was well known at one time as a clerk in the Bates House drug store. Found on the River Bank.

A man between sixty-five and seventy years of age was found yesterday afternoon, at 4 o'clock, lying insensible on the bank of White river, near the Armstrong ice-pends. He was one Schoolcraft, who lived on the road leading out of Indiana avenue to North Indianapolis. Friday noon Schoolcraft, under the influence of noon Schoolcraft, under the influence of liquor, was angered by some trivial occurrence at the dinner-table. He left the house, saying, "When you find my body it will be in the river." Not returning that night a search was made for him, which was not successful until he was discovered as described. By his side was a bottle that contained morphine. Schoolcraft was taken to his home, where he died within a few minutes after reaching it. His wife's death some months ago was a sore affliction to him and months ago was a sore affliction to him and it is thought this had something to do with

Form of Entry Objectionable. Messrs. Steele and Allen, of the Citizens' Street-railroad Company, spent the day with the County Commissioners yesterday waiting for them to agree upon an entry giving the company a franchise for Central avenue. Mr. Allen had come with one already prepared, granting the company a right of way out Central avenue to Twenty-sixth street and across on Twenty-sixth street to Crown Hill. In the morning Commissioner Farrell was absent, and the company's representatives did not press the matter. In the afternoon 'Squire Em-rich did not arrive until about 4 o'clock. Mr. Allen asked Messrs. Farrell and Hunter to go ahead and sign the entry anyhow, but they put him off with a smile. When 'Squire Emrich finally came they quickly agreed upon the grant, but did not sign the entry. The Citizens' company will have to put up another bond of \$10,000 to begin work on the line by July 20 and complete it by Oct. 1. Mr. Allen's entry said nothing about a bond, and required the completion of a mile of theroa d by Oct. 20. It also had the objectionable clause preventing the grade from ever being changed after the tracks are put down. This will also have to come out. City Attorney Spencer will draw up a new entry, imposing substantially the same conditions as those of last week's contract for the North Indianapolis line.

The Flag at School No. 1. At school No. 1 yesterday afternoon, a beautiful flag, 12x20 feet, was raised, in the presence of a large crowd. The exercises of the character that has so often followed on sim-occasions recently. Ralph Hill was master of ceremonies, and speeches were made by General Coburn and A. C. Shortridge. The flag was raised by United States soldiers, and Mrs. Leon Bailey, as the final number, sang the "Star-spangled

Banner."

Chargeable to Cupid. Some of our esteemed contemporaries are discussing the correlated questions, "Why do Englishmen marry American girls?" and Why do American girls marry Englishment" When they can find a general law regulating such affairs to which there are not more exceptions than instances they may be able to solve the puzzle, not before. Meanwhile, non-philosophic people will continue to accept the ancient doctrine that Cupid is a sightless archer, and his arrows fly without an aim. Scared His Daughter's Suitor.

Phtiadelphia Times.

A young man of Bethlehem went out walking with a neighbor's daughter one evening this week, which he knew was against the wishes of the girl's father. And when he saw him coming around the corner he took to his heels, and, stumbling, fell and burt himself. Then he had his pros pective father-in-law arrested for scaring him and causing him to fall. To the amusement and wonder of the town a justice held the old gentleman in \$ 300 bail for trial.
